~~22~~

A method of making a dielectric layer between a pair of opposing electrodes comprising the steps of:

forming, as said dielectric layer, an epitaxial thin film on a textured substrate;

forming one of said electrodes on an exposed surface of said thin film;

wholly or partially removing said textured substrate; and

forming an electrical connection to access said dielectric layer on the side of said textured substrate.

A!  
~~23~~

The method according to Claim 22 wherein the textured substrate comprises nickel.

~~24~~

The method according to Claim 22 wherein said epitaxial thin film is formed from perovskite.
